Pavel Kokora

Product leader · Business unit leader · AI-native
Barcelona, Spain · pavel.kokora@gmail.com · Telegram: @pavelkokora · LinkedIn

Summary

7+ years building and scaling businesses across EdTech, FinTech, B2B SaaS and e-commerce in 12 countries (LatAm, Asia, CIS). Most recently owned the P&L and led a LatAm online-school unit with $200k+ monthly revenue and a 200+ person team.

Took two businesses to profit: a LatAm online school's first-sale unit economics from loss to profit, and a Vietnamese fintech to positive EBITDA of +$200k/month.

Built businesses from the ground up as a two-time founder (AI B2B SaaS, marketing agency).

Path: marketing → product management → business-unit and P&L leadership

Working with AI since 2021.

I've gone from personally designing ads in Canva to leading a $2M P&L business unit with 200+ people, overseeing the entire revenue cycle and managing functional heads across Sales, Marketing, and Retention.

My superpower is building and scaling end-to-end revenue engines. I have 10,000+ hours of hands-on experience building and optimizing marketing and sales funnels — improving conversions at every stage, from the first ad click and lead generation to sales, retention, and repeat purchases.

EXPERIENCE

Algonova – international coding school for kids, 90+ countries

Head of LatAm Business Unit *(Jul 2026 – Oct 2026)*
P&L owner · 5 LatAm countries (Mexico, Colombia, Chile, Peru, Argentina) · team of 200+

Product Manager, Sales Funnel *(Mar 2025 – Jun 2026)*
Owned the LatAm and Asia sales funnel: lead → trial class → first sale

• Have raised LATAM's lead creation -> trial class attendance conversion 1.8x (from 13% to 23,5%) by changing the motivation system of L2A team, scaling best manager's practices to all L2A team and changing communication flow in whatsapp —> it helped to cut marketing cost per trial-class attendance by 1.6x and helped to achieve first sales profitability in region (first-sale margin before acquisition costs / CAC: **0.8** → **1.1**) on $200k/month scale.

• Was promoted to Head of LatAm based on the result above.

• As Head of LatAm, delivered the unit's best-ever monthly net financial result after cost allocations by shifting installment fees to customers and changing pricing.

• Owned LatAm P&L and operations, leading a 200+ person unit (sales 90+, teachers 110+)

• The role ended as the company decided to close the LatAm business unit because of not reaching profitability targets

GaleAI – Co-founder & CEO *(March 2024 – Feb 2025)*

B2B SaaS · AI quality control for sales teams · top-30 AI startups in Russia by ProductRadar

• Took the company from idea to $12K+ revenue in the first 4 months without paid ads, using one acquisition channel.

• Launched the MVP in 3 months with no investment, bringing on a technical co-founder for equity only. •

• Shut the company down after concluding the business model would not scale.

Eqvanta Group – Head of Product in Vietnam subsidiary company *(Mar 2023 – Apr 2024)*

Online lending · Vietnam · $10M+ annual revenue · part of one of Russia's largest financial groups · 15-person product and dev team

• Led the business to positive EBITDA (+$200K/month as of March 2024) in 11 months by lifting loan renewal penetration from 12% to 17% through customer journey optimization (web + mob app).

• Raised sprint completion from 40% to 75%+ in 8 months by restructuring product and development teams.

Praktika.ai – Product Manager (first employee) *(Sep 2021 – Feb 2023)*

AI language-learning app · 30M+ users today · ~$55M+ ARR today · $37M+ raised

• Have coordinated the product creation and launch from scratch, with a 10-person product-tech team of devs, scenarists, and designers.

• Was in charge of roadmap creation and implementation, and reached first 20k MRR

• I've increased by 1.5x+ [first-time subscription conversion] by adding ChatGpt to the product and by 2x [sessions per user a week] by testing a bunch of features for client engagement.

Marketing agency – Founder & CEO *(Jan 2021 – Sep 2021)*

Digital services agency: SEO, websites, advertising

• Built a profitable business from scratch: $40k+ revenue in first year at a 50%+ profit margin across 15+ projects.

• Handed the business to a partner to join Praktika.ai.

Earlier experience

• **Ennergiia – Marketing Manager** (fashion e-commerce, RUB 1.2B annual revenue, subsidiary company of Stroitelny Dvor) *(2020 – 2021):* added $1.5M+ to annual revenue via marketplace sales; scaled MAU from 90K to 400K+ in 9 months.

• **Local marketing agency – Marketing Manager** *(2019)*: built a 3-person lead-generation team from scratch, 100+ leads/month within 2 months.

EDUCATION

State University of Management – Business Informatics, Russia
Growth Management Simulator – GoPractice (2023–2024)
IT Product Management – Otus (2021–2022)
